

**Genesis** is ergonomic in form, style and function. The Genesis Series features high, mid, and low back versions. This popular chair series is available armless or in four types of standard arm packages. Genesis is available in versions ranging from a basic task chair (099) posture mech (085) synchro mech (051) side tension mech (091) along with an asynchronous mech with a seat slider (054) all described on the next page. There is also a Big & Tall version high back chair; this chair comes standard with a heavy duty asynchronous mech (501) or heavy duty asynchronous mech with a seat slider (504) for the Big & Tall chair only..

## Genesis Features & Benefits

**Molded Ultrafoam®:** Chromcraft uses molded high resilient Ultrafoam® produced at our own facility in Senatobia, MS. Ultrafoam® is treated with fire retardant chemicals and is backed by our Lifetime Warranty. No other foam carries that type of warranty!

**Inner and Outer Backs:** Constructed of multi-contoured molded polypropylene, the outer back has a decorative texture and a ribbed design. The inner back is molded with internal fasteners built inside the unit for a custom fit when matched with the outer shell.

**Internal Back Height Mechanism:** Is standard on all models except the (099) mechanism. The ratchet mechanism allows for 2.5" travel up or down with 7 locking positions. This allows the user to adjust the height while seated by simply lifting on the back.

**Arms:** Three styles are available, each with a durable urethane over steel arm pad.

1. Vertical adjustment only with 3.25" travel.
2. Vertical and Width adjustable with 3.25" height and 3.5" width adjustment.
3. Vertical and Width adjustable with a pivoting arm pad.
4. Fixed non adjustable.

**Casters & Cylinder:** Heavy duty class four cylinders and heavy duty 55mm casters are standard on all Genesis task chairs. Class four cylinders hold loads in excess of 440 lbs.

**091** side tension posture back mechanism with a 2.5 to 1 seat to back ratio. Unique side tension adjustment handle. The same tension handle also activates the pneumatic cylinder. Five position back lock feature.

**054** asynchronous multi function task mechanism with auto style seat slider underneath seat front. Independent seat angle handle and separate infinite back angle adjustment handle.

**051** synchro task mechanism allows seat and back angle with a single lever at a 2 to 1 ratio. Seat and back adjustment lock. Tension control knob. Seat and back moves as one unit at a 2 to 1 ratio in the unlock position.

**095** swivel tilt mechanism that is tension adjustable. pneumatic height adjustment. Seat and back tilt as one unit.

**099** basic task mechanism, swivel 360°, height adjustable gas cylinder. Chair back is attached via a j-bar which allows for horizontal adjustment of chair back.

**085** simple posture mechanism allows the user to adjust the back only in an infinite range of motion. Ratchet back mechanism and pneumatic height.

## Genesis

Available in more than 400 standard fabrics and vinyl choices as well as our popular grade in program. Your choices are virtually limitless.

### Big & Tall Features

Genesis Big & Tall is an amazing combination of durability, comfort and value. Genesis Big & Tall was built to accommodate users up to 500 lbs. and the demands of heavy duty use situations. 25" seat width, 21" seat depth, 25" back width and a 27" back height. This chair easily handles the requirements of 24 hour aggressive use and specialty applications. Features include; heavy duty intensive use mechanism, a fully adjustable arm option, die cast aluminum ratchet back height adjustment mechanism, six prong molded base, heavy duty pneumatic cylinder and casters. Also available is a 2.5" seat slider option.
